Response to Arguments

1. Applicant's arguments, see pages 7-11, filed 10/29/2007 have been fully considered and are persuasive.

Allowable Subject Matter

2. Claims 1-3, 5, and 9-25 are allowed. The following is an examiner's statement of reasons for allowance:

With respect to claims 1-3, 5, 9-15, and 21-25, the references of record neither anticipate nor render obvious the recited combinations including the features of adding the non-negative continuous-time signal with the non-negative binary output signal, which generated by the inverting bistable device, to form an non-negative intermediate signal, and then providing the non-negative intermediate signal to the leaky integrator.

With respect to claims 16-20, the references of record neither anticipate nor render obvious the recited combination including the leaky integrator which generates an integrated signal from output of the first fiber-optic coupler; the inverting bistable device configured to produce a binary signal from the integrated signal; and a second optical coupler coupled to the inverting bistable device configure to provide a binary output signal and the feedback signal.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
